

- **A lot to consider**
 - Principal objective clear
 - But a lot to consider when balancing secondary objectives
 - Tools such as regulatory stances and strategic narrative can help
- **Aggregating and looking across time**
 - Policy decisions will have different primary aims
 - Promoting competition / efficiency and protecting vulnerable consumers
 - Tariff Price cap
 - Targeted Charging Review
 - Making better use of impact assessments
 - Richer distributional analysis
 - Data challenges
- **Working together**
 - Sector specific issues but are there common issues that are best addressed together?
